PART II: Air Quality Monitoring Workgroup meeting with community partners (11:00am to 12:30pm)  
Workgroup of the Air Quality Monitoring Workgroup of Northeast and Mid-Atlantic state agencies and D.C

Commissioners are invited to join the workgroup meeting. The Workgroup was formed to create a “community of practice” among state agency staff to share information and best practices regarding community-based air quality monitoring and related policy actions. On the call, we hope to cover the following topics:

- Briefly outline proposed goals and activities for the workgroup.
- Invite feedback and suggestions regarding future workgroup activities, and
- Discuss partnership opportunities, including by leveraging federal funding, through ongoing or planned community-based air quality monitoring projects.

To join the meeting please [RSVP here](#). Additional details have been provided by email.
